

CRYSTAL GLASS (WG)

CRYSTAL GLASS SWIRL

Model
WG 7305

Shape:

- Both awards have a rectangular body that tapers slightly in depth but stands tall and straight.
- The top edge is curved upward on one side, creating a distinctive wave-like contour.
- Mounted on a thick, solid crystal base, adding stability and enhancing their premium appearance.

Material:

- Made entirely from clear crystal, providing high transparency and a polished surface.
- Color-tinted segments (copper and gold) are embedded or fused into the design to add accent and distinction.

Gold/Copper-Tinted:

- **Color Scheme:** Gold/Copper highlights at both the top and bottom segments.
- **Top Section:** Curved amber block overlays the clear body.
- **Base:** Gold/Copper-colored arc fused into a crystal platform, giving warmth and elegance.

Key Aesthetic Features:

- **Symmetry and Balance:** Despite the asymmetrical top curve, the vertical design remains visually balanced.
- **Light Interaction:** The cut and clarity of the crystal allow light to refract, enhancing its brilliance.
- **Customizable Space:** The large flat area in the middle is ideal for engraving or printing names, logos, and award details.

C 8½"
₹ 1065

CRYSTAL GLASS BLUE PEAK

Model
WG 7314

Shape:

- The award has a tall, asymmetric polygonal form with a dynamic, upward-slanting top edge.
- One side slants steeply upward while the other remains mostly vertical, creating a sleek, diagonally-cut peak.
- The structure tapers slightly from a wider base to a narrow top, giving a monolithic feel.

Material:

- Made entirely of clear and frosted crystal/acrylic, providing high clarity and a glossy finish.
- The lower section features a frosted blue geometric block embedded diagonally, adding visual interest and contrast.

Base:

- Sits atop a thick, rectangular crystal base, cut with beveled edges for a reflective, elegant look.
- The base provides stability and enhances the upscale appearance.
- **Lower Portion:** Diagonal accent in a frosted or tinted bluish hue breaks the monotony and adds depth.

Key Aesthetic Features:

- **Modern & Corporate:** Clean lines and asymmetry align with contemporary design tastes.
- **Geometric Sophistication:** Combination of triangle and trapezoid shapes evoke sharpness and precision.
- **Optical Appeal:** The contrast between clear and frosted areas allows light play and adds visual sophistication.

CRYSTAL GLASS BLUE OVAL

Model
WG 7315

Shape:

- The trophy features an oval vertical form with a yin-yang-inspired split design.
- One side is solid white for inscription purposes, while the other has a vibrant, abstract pattern with triangle-like blue accents on a dark background.

Material:

- Appears to be made of high-grade clear crystal, offering a glossy and transparent look.
- The white section is frosted or printed onto the surface to provide contrast for the text.

Base:

- Mounted on a solid, beveled rectangular base made of the same transparent material.

Design Elements:

- Decorated with a dynamic blue triangle pattern on a dark navy background, contributing a modern and celebratory feel.

Key Aesthetic Features:

- **Abstract Modernism:** The curved divide between patterned and plain surfaces gives the piece a fluid and artistic character.
- **Vivid Contrasts:** The bold blue geometric pattern pops against the white backdrop.
- **Elegant Typography:** Mix of gold, red, and navy text conveys prestige and festivity.

CRYSTAL GLASS BRILLIANT STAR

Model
WG 7327

Shape:

- Vertically oriented oval plaque mounted on a thick, transparent rectangular base.
- The body of the trophy leans slightly backward, giving it a dynamic and visually striking posture.

Material:

- Made of clear crystal, with a smooth, glossy finish.
- Offers transparency that enhances the clean and professional aesthetic.

Decorative Feature:

- A bold, blue star is embedded on the top right corner, extending slightly outward from the plaque. This adds a sense of achievement and celebration.
- The star is sleek and sharply cut, contributing a modern, energetic vibe.

Base:

- The base is a beveled, rectangular block, likely of transparent acrylic with a reflective finish, adding stability and a sense of elegance.

Key Aesthetic Features:

- Sleek and simple yet celebratory design.
- The blue star pops against the transparent body, drawing the eye upward.
- Minimalist elegance—no clutter, just clean lines and meaningful elements.

CRYSTAL GLASS CONSISTENCY

Model
WG 7328

Shape:

- The trophy has a curved asymmetrical shape, resembling a stylized flame or sail.
- The design curves upward to a rounded peak on the right, creating a flowing and graceful appearance.

Materials & Colors:

- Clear crystal main body with a golden side panel on the left.
- The golden panel is solid, opaque, and follows the curve of the main body, adding contrast and luxury.
- The base is a transparent rectangular platform, providing stability and a classic finish.
- The award has smooth, polished edges and a flat front face ideal for engraving or printing.

Design Highlights:

- The combination of gold and clear crystal gives it a premium, prestigious look.
- The asymmetrical curve adds visual interest and modernity.
- The award projects a sense of motion and growth, making it symbolically suitable for sales and performance recognition.

CRYSTAL GLASS ALL ROUND STAR

Model
WG 7347

Shape:

- Both trophies are perfectly circular in shape, resembling a disc or medallion mounted upright.
- They are supported by a horizontal rectangular base, giving the award stability and prominence.

Material & Finish:

- The main body of each trophy is made of transparent crystal glass.
- The bases are solid black on the front for branding and custom text.

Gold/Silver Accents:

- Golden /Silver star mounted at the bottom left inside the circular glass.

Design Highlights:

- Compact and elegant design — ideal for desktop display.
- Stars (gold/silver) serve as symbolic representation of excellence.
- The interchangeable base plate color allows for customization based on award tier or branding.

CRYSTAL GLASS SHIELD

Model
WG 7330

Shape:

- The trophy has a curved asymmetrical shape, resembling a stylized flame or sail.
- The design curves upward to a rounded peak on the right, creating a flowing and graceful appearance.

Materials & Colors:

- Clear crystal main body with a golden side panel on the left.
- The golden panel is solid, opaque, and follows the curve of the main body, adding contrast and luxury.
- The base is a transparent rectangular platform, providing stability and a classic finish.
- The award has smooth, polished edges and a flat front face ideal for engraving or printing.

Design Highlights:

- The combination of gold and clear crystal gives it a premium, prestigious look.
- The asymmetrical curve adds visual interest and modernity.
- The award projects a sense of motion and growth, making it symbolically suitable for sales and performance recognition.

CRYSTAL GLASS MINI PLAQUE

Model
WG 7358

Shape:

- The award has a trapezoidal prism shape, slightly tapering upwards.
- The top is flat and angled inward, and the sides are chamfered, creating a clean and sharp outline.
- It rests on a geometric, beveled glass base, which supports the structure firmly and adds a reflective, elegant finish.

Material:

- The entire body and base appear to be made of clear crystal glass, giving it a premium and sophisticated appearance.
- At the bottom front, there is a 3D silver metallic star embedded within the glass, symbolizing excellence or stellar achievement.

Design Highlights:

- Modern and sleek structure—combines sharp edges with elegant clarity.
- The silver star adds a 3D element and reinforces the celebratory and prestigious nature of the award.
- Its compact and stable base makes it suitable for desktop or shelf display.

A 5"

₹ 430

CRYSTAL GLASS MINI SHIELD PLAQUE

Model
WG 7359

Shape & Design:

- The award has a shield-like pentagonal shape with clean, angled edges, symbolizing protection, honor, and excellence.
- It has a broad flat front surface ideal for engraving logos, names, and messages.
- At the base front, there's a 3D silver metallic star attached diagonally, adding a dynamic and elegant touch.
- It stands on a sturdy, beveled rectangular crystal base, offering stability and refined aesthetics.

Material:

- Made of transparent crystal, offering clarity, brilliance, and durability.
- The silver star at the bottom is likely metal or chrome-coated resin, giving a reflective, eye-catching finish.

Design Highlights:

- The geometric star adds symbolism of excellence and achievement.
- The crystal structure reflects light beautifully, making it suitable for formal and executive recognition.
- Its angled edges and symmetrical form evoke modern elegance and professionalism.

₹ 430

CRYSTAL GLASS RIGHT PRICE

Model
WG 7377

Shape:

- The award has a rectangular vertical body with beveled and slightly chamfered corners, giving it a polished and geometric look.
- The upper edges are subtly angled for a refined cut-glass effect.
- Mounted on a dual-layer rectangular base:
- The bottom layer is clear,
- The top layer is blue-tinted, adding contrast and elegance.

Material:

- Made from clear, polished crystal or high-grade acrylic, giving a transparent and glossy appearance.
- The blue base likely uses colored acrylic or tinted crystal for visual accentuation.
- A blue wave graphic design element is printed inside near the base, adding a subtle artistic touch.

Design Highlights:

- The minimalist rectangular shape reflects modern corporate aesthetics.
- The blue accent base and engraved quote elevate the emotional value.
- The optical clarity and straight edges give it a premium and professional feel.

₹ 700

CRYSTAL GLASS OCTAGON

Model
WG 7390

Shape:

- The main body of the award is circular but multi-faceted, giving it a gem-like, polygonal appearance when viewed from the front.
- The circular face is flat and suitable for detailed branding and text, while the beveled edges create depth and dimension, reflecting light like a cut diamond.

Base:

- It sits on a black trapezoidal base, wider at the bottom for stability.

Material & Finish:

- Made from optical crystal, with a frosted and polished finish.
- The facets reflect ambient light for a brilliant, premium effect.
- The base may be made from acrylic or high-gloss resin, offering contrast to the transparent top.

CRYSTAL GLASS OCTAGON

Model
WG 7392

Shape:

- The main body of the award is a vertically-oriented U-shape, resembling a rounded rectangular shield.
- The upper corners are squared, while the bottom curves gently inward in a concave arch, giving it a graceful and soft appearance.
- The front face is flat and smooth, designed for printed or engraved content.

Base:

- The award stands on a thick, transparent rectangular base, made of what appears to be optical crystal or acrylic.
- A curved blue cylindrical accent (possibly faux leather or colored resin) sits atop the base, adding a splash of color and luxury.

Material & Finish:

- Likely made from premium-grade optical crystal, with polished edges for light reflection.
- The blue accent on the base adds a premium aesthetic.
- Crystal-clear finish gives it a luxury feel, suitable for beauty pageants, entertainment awards, or commemorative events.

₹ 700

CRYSTAL GLASS OCTAGON

Shape:

- The trophy features a tall, asymmetrical geometric design.
- The main body is a tapered trapezoidal panel that angles upward from left to right, giving it a dynamic, upward-thrusting appearance, symbolizing growth and progress.
- The shape is curved on the outer edges with a clean, smooth surface—ideal for laser engraving or printed content.

Side Panels:

- It includes two accent panels:
- Left side: Transparent Emerald green vertical wing, curving inward.
- Right side: Transparent Sapphire blue vertical wing, slightly longer and also curved inward.
- These side elements create a three-dimensional layered effect, enhancing visual interest.

Base:

- The structure is mounted on a clear rectangular base, which provides stability and adds to the elegance.
- The transparent base subtly complements the colored side wings, maintaining a clean and premium look.

CRYSTAL GLASS OCTAGON

Model
WG 7395

Shape & Design:

- The trophy is designed in a tall diamond or kite-like shape, tapering to a point at the top.
- The front face is a flat surface with a frosted or semi-opaque inner panel, perfect for showcasing engraved or printed text.
- This diamond structure has clean, sharp lines that give it a crisp, prestigious feel.

Base:

- The award sits on a multi-layered transparent and blue base:
- Main support block is a rectangular deep blue horizontal slab.
- The overall base is clear with beveled edges, creating a refractive, crystalline look.
- On each side of the base, there are two spherical crystal ornaments, adding visual balance and elegance.

Main material:

- Transparent crystal.

Base:

- Deep royal blue with a clear supporting platform and clear spheres.

CRYSTAL GLASS RIGHT PRICE

Model
WG 7396

Shape & Design:

- The award has a pointed arch or flame-like shape, where the sides gently curve inward and peak to a sharp point at the top.
- The front surface is flat and transparent, ideal for showcasing printed or engraved content.
- The edges have a beveled cut, giving it a refined, polished appearance.

Base:

- The base is an arched, crescent-style stand in a golden-yellow tint.
- It securely cradles the bottom of the plaque while adding a contrasting pop of color to the otherwise clear body.
- The base is slightly curved upward, both stylistically and functionally.

Color Scheme:

- Body: Clear crystal with polished beveled edges.

Base:

- Glossy gold/yellow finish.

A 8½"

₹ 1595

CRYSTAL GLASS RIGHT PRICE

CRYSTAL GLASS OCTAGON

Model
WG 7406

Shape and Structure:

- **Form:** The award has a tall, vertical shape with a tapered polygonal outline—wider at the top and narrowing towards the bottom, forming a shield- or obelisk-like profile.
- **Material:** Made of transparent crystal, giving it a premium and elegant appearance.
- **Edges:** The edges are beveled, giving a refined and faceted look that reflects light attractively.
- **Base:** At the bottom is a large, multifaceted crystal diamond, fixed to the main body. It features a rainbow-hued reflective effect, adding visual flair and sophistication.

Overall Aesthetic:

- **Professional and Elegant:** The clean typography, signature, and crystal structure convey prestige.
- **Color Accents:** The red eagle logo and multicolor diamond base give it a visual pop against the clear background.
- **Height Emphasis:** Taller than it is wide, it creates a sense of vertical grandeur — ideal for standing display on desks or shelves.

CRYSTAL GLASS OCTAGON

Model
WG 7407

Shape and Build:

- **Form:** The plaque has a tapered vertical shape that flares outward at the top, giving it a gentle hourglass silhouette.
- **Top Edge:** Slightly curved or arched, adding elegance and a sense of flow.
- **Material:** Made from transparent crystal or acrylic, lending a sleek and modern appearance.
- **Thickness:** Moderately slim but sturdy enough to stand upright.

Base:

- A large, multifaceted crystal diamond is fixed to the bottom center.
- It has a color-reflective effect with hues of yellow, green, blue, and pink, adding visual appeal and a celebratory feel.

Aesthetic Summary:

- Elegant and celebratory, ideal for milestone recognition.
- Combines formal design (classic fonts and layout) with festive elements (colorful diamond base, stars, and waves).
- Meant for desktop or shelf display, projecting both gratitude and professionalism.

CRYSTAL GLASS RIGHT PRICE

Model
WG 7408

Shape and Build:

- **Form:** The central part of the award is a pentagon-shaped upright crystal (tapered at the top), flanked by two angled side panels.
- It has a layered, 3D geometric structure, making it more sculptural than flat plaques.
- **Material:** Clear crystal with embedded colored elements.

Base:

- A rectangular, tiered crystal base, giving it stability and elevation.
- Blue accent layer just above the base for contrast.

Design and Decorative Features:

- Color Theme: Dominantly blue, yellow/gold, and white, projecting a vibrant and prestigious look.

Star Motifs:

- Numerous gold and white stars embedded and printed throughout the top and side panels.
- Blue side panels contain glittery gold stars for a dynamic effect.

Aesthetic Summary:

- **Bold, Festive, and Eye-Catching:** The combination of stars, laurels, and vibrant colors make this award perfect for high-energy recognition like leadership, excellence, or inspiration.
- **3D Multi-Layered Design:** Adds a sculptural presence, making it ideal for display.
- **Symbolism:** Stars and laurels emphasize achievement, leadership, and brilliance.

CRYSTAL GLASS RIGHT PRICE

Model
WG 7409

Shape & Build:

Tall and Vertical Structure:

- The main body of the award is tall and angular, giving a sense of prestige and upward motion.
- It narrows toward the base, emphasizing height and elegance.
- **Material:** Primarily made from clear crystal/acrylic, paired with colorful and dark solid base components.

Top Section (Main Plaque):

- Form: A tapered, asymmetrical triangular panel that tilts slightly backward.

Middle Section (Decorative Block):

- Shape: A bold, faceted multicolor geometric prism, resembling a gemstone or fractured crystal.
- **Color:** Bright and vivid mix of yellow, red, blue, purple, and green, giving a celebratory and artistic appearance.
- **Function:** Acts as a visual divider between the clear top and dark base, bringing energy and color contrast.

Base Section:

- **Shape:** Solid black polygonal base, stable and wide.

Aesthetic Summary:

- Modern, Bold, and Prestigious.
- Balanced use of formal black, vivid colors, and clear materials.
- Symbolizes vision, leadership, and high honor, making it ideal for a lifetime achievement recognition.

CRYSTAL GLASS RIGHT PRICE

Model
WG 7410

Overall Structure:

- **Form:** The award has a wave-like vertical shape, curving gracefully to the right at the top — giving it a sense of fluidity and elegance.
- **Material:** Made of clear crystal with vibrant, multi-colored design elements.
- **Height:** Tall and narrow with a layered, eye-catching profile.

Top Section (Main Body):

- **Design:** Smooth, clear crystal panel with a gentle S-curve, tapering slightly toward the base.
- **Color Accents:** Subtle pink and purple reflection at the top left corner.

Middle Section (Decorative Element):

- **Shape:** A curved, geometric multicolored block—similar to a stylized ribbon or flame.
- **Color:** Contains vivid shades of blue, red, yellow, purple, and green, adding a dramatic and celebratory flair.
- **Position:** Mounted at the base of the upper section, visually dividing the clear body from the base.

Base Section:

- **Material:** Clear crystal, rectangular and stable.

Aesthetic Summary:

- **Modern and Dynamic Design:** The flowing shape and vibrant colors make this award look energetic and prestigious.
- **Ideal for High Achievers:** Celebrates top sales performance with a unique blend of class and excitement.
- **Display-Ready:** The distinct wave shape and multicolor base make it a standout piece for desks or award showcases.

CRYSTAL GLASS RIGHT PRICE

Model
WG 7411

Shape & Build:

Form:

- The trophy features a tall, asymmetrical structure with a sharply angled top, giving it a geometric, modern appearance.
- The right side rises into a peak, while the left side is straight with colorful crystal facets.

Material:

- Primarily constructed from clear and multicolored crystal, with both glossy and matte finishes.

Dimensions:

- Tall and relatively narrow, making it ideal for a desktop display.

Color and Design Elements:

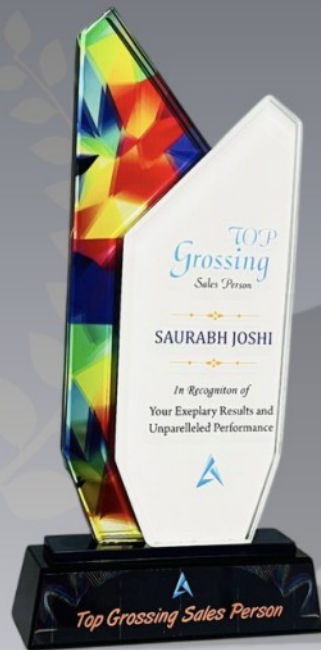

- **Left Panel:** A faceted, multicolor design with vibrant reflections in red, yellow, green, blue, and purple, adding a dynamic and energetic vibe.
- **Right Panel:** A white frosted crystal face used for inscription, providing high contrast for the text.

Base:

- **Material:** Solid black crystal with a flat rectangular shape.

Aesthetic Summary:

- Modern, Bold, and Prestigious.
- Combines geometric sharpness with colorful celebration.
- Excellent for top achievers, symbolizing peak performance and standout results.
- The mix of clean text and colorful design makes it eye-catching and award-worthy.

A 9.75"
