

# PREMIUM EXCLUSIVE (XL)

# PREMIUM EXCLUSIVE RIGHT PRICE

Model  
**XL 101**

## Main Body:

- The central part is a tall, triangular glass/acrylic panel, standing upright with a sharp, pointed top.
- Inside this panel, there is a decorative flame-like structure made of colored glass/resin.
- The flame design twists upward, flowing in a dynamic curve.
- Colors transition from deep red/pink at the base, through golden yellow, and into orange-red at the tip, symbolizing energy, growth, and vitality.

## Base:

- The award rests on a black, glossy pedestal base, shaped like a truncated square pyramid (wider at the bottom, narrower at the top).

## Overall Shape & Aesthetic:

- The tall, slender glass body emphasizes elegance and prestige.
- The swirling flame-like element inside symbolizes passion, creativity, and achievement.
- The combination of transparent glass with vibrant colors gives the award a modern, premium, and celebratory appearance.

Model  
**XL 102**

## Main Body:

- The award is made of clear crystal, shaped into a tall, upright column.
- Its structure is multi-faceted, with angled cuts along the edges and top, giving it a sleek, diamond-like appearance.
- The front face is flat and polished, serving as the display area for text and graphics.

## Top Section:

- The top is slanted at an angle, not flat, which adds a dynamic and modern look.
- The angled cut creates reflections that enhance the crystalline brilliance.

## Base:

- The bottom is geometric and stable, with beveled crystal edges that reflect light, enhancing its elegance.
- Unlike some trophies, this one doesn't have a separate dark pedestal; instead, the crystal itself forms both the body and base.

## Overall Aesthetic:

- The award has a minimalist yet premium look, focusing on clarity, sharp angles, and light refraction.
- It conveys professionalism, appreciation, and prestige, making it ideal for corporate recognition.

Model  
**XL 103**

## Main Body:

- The award is made of crystal.
- It has a flat, octagonal face (eight sides), giving it a symmetrical yet elegant appearance.
- The surface is smooth and polished, designed to hold engraving and printing.
- Around the inner edge of the octagon, there is a thin engraved border line, enhancing its framed look.

## Base:

- The glass plaque is mounted on a rectangular wooden base with a polished finish.
- The base adds contrast, stability, and a traditional touch to the otherwise modern glass structure.

## Overall Aesthetic:

- The award blends simplicity and elegance, with the geometric crystal body representing modern style, while the wooden base provides warmth and a classic feel.
- It is well-suited for corporate recognition, appreciation, and service awards.

Model  
**XL 104**

## **Main Body:**

- The trophy has a tall, upright crystal panel shaped like a tapered trapezoid, wider at the top and narrowing toward the base.
- The front surface is smooth and polished, while the sides have a textured, frosted pattern, adding contrast and shine.
- A prominent blue star emblem is affixed on the upper right portion of the panel, symbolizing achievement, excellence, and recognition.

## **Base:**

- The panel is mounted on a black pedestal base, shaped like a truncated pyramid (wider at the bottom, narrower at the top).

## **Overall Aesthetic:**

- The combination of clear glass, textured edges, and the bold blue star gives the award a modern and prestigious appearance.
- The star adds a sense of victory and excellence, making it well-suited for performance recognition, leadership, or milestone achievements.

Model  
**XL 105**

## Top Section:

- The upper part of the trophy is a crystal structure shaped like multiple rising vertical facets, resembling a flame or crown.
- It has a clear, reflective finish that enhances light refraction, giving it a shining, premium appearance.

## Middle Section:

- The crystal is held in a golden cup-shaped support with a laurel leaf engraving on both sides — a classic symbol of victory, honor, and achievement.
- The gold portion extends downward into a narrower stem, giving the trophy a strong vertical flow.

## Base:

- The award sits on a black circular pedestal base, solid and glossy, providing stability.

## Overall Aesthetic:

- The combination of gold and crystal gives this trophy a classic, celebratory look, fitting for performance excellence or recognition in a corporate or institutional setting.
- The laurel engravings emphasize honor and prestige, while the crystal top adds elegance and shine.

Model  
**XL 109**

## Main Body:

- The award is made of a clear, upright rectangular crystal panel with slightly curved top edges, giving it a softer, flowing appearance.
- The side borders of the panel are decorated with a blue strip containing golden star patterns, adding a celebratory and festive touch.
- The front surface is smooth and polished, designed for text and logo engraving.

## Base:

- The award is mounted on a golden curved base with an arched cut-out in the middle, giving it a unique and elegant stance.
- The base provides stability while adding a touch of prestige with its shiny golden finish.

## Overall Aesthetic:

- The combination of clear glass, golden accents, and blue starry borders makes this award look celebratory, modern, and premium.
- It is well-suited for corporate milestone achievements, sales awards, or performance recognition.

# PREMIUM EXCLUSIVE RIGHT PRICE

Model  
**XL III**

## Main Body:

- The award has a tall, upright crystal panel, shaped in a slightly curved, sail-like form that tapers upward.
- The glass surface is clear with golden star patterns scattered across it, symbolizing achievement and excellence.

## Decorative Element:

- At the lower front, a large golden 3D star is mounted, with a bold arc extending upward in front of the glass, merging into the design.
- This element gives the award a dynamic, celebratory look.

## Base:

- The trophy rests on a solid black pedestal base, trapezoidal in shape (wider at the bottom, narrower at the top).
- The black base contrasts with the bright golden star and clear glass, providing balance and stability.

## Overall Aesthetic:

- The combination of glass clarity, golden star, and engraved details creates a prestigious and motivational design.
- It is particularly well-suited for employee recognition, star performer awards, or annual excellence achievements.

Model  
**XL 112**

## Top Section (Lid & Crown):

- The trophy is topped with a clear, pointed finial shaped like a flame or teardrop, adding height and prestige.
- Just below the finial is a golden crown with intricate details and ornamental knobs, symbolizing royalty or high achievement.

## Main Body (Cup):

- The central body of the trophy is made from cut-glass or crystal, featuring a diamond pattern texture.
- Two symmetrical handles, also clear, emerge from either side, sculpted with floral or feather-like details to enhance its regal appearance.

## Base Section:

- The base is a gold-colored, ornate pedestal, richly decorated with floral carvings and intricate embossing.
- The base is circular and tapers out at the bottom for a stable foundation.

## Materials & Finish:

- Materials: Combination of resin for the golden parts and crystal for the clear sections.
- Finish: Shiny, reflective gold paired with transparent crystal-like elements, giving it a luxurious and celebratory look.

## Overall Impression:

- The trophy is regal, elegant, and formal, making it suitable for corporate recognition or honorary awards.
- The use of a crown and crystal gives it a royalty-themed aesthetic, emphasizing prestige and excellence.

**XL 113**

## Top Section (Star Element):

- The top of the trophy features a 3D geometric star shape, symbolizing excellence and high achievement.
- The star is integrated into the transparent crystal body, with sharp edges and angular cuts that give it a modern and striking appearance.
- Two overlapping triangular logos in blue and red are embedded near the top, adding a subtle but bold accent.

## Middle Section (Crystal Body):

- The body of the trophy is made of clear, high-polish crystal with a tall rectangular prism shape.
- It has clean, vertical facets that catch and reflect light elegantly.
- The bottom portion of the clear crystal body transitions into a vivid orange glitter section, creating a sparkling visual break and adding vibrancy.

## Base Section (Black Plaque):

- The base is a black rectangular block, forming the foundation of the award.

## Overall Design:

- The award combines modern minimalism with elegant symbolism (via the star and crystal).
- The color scheme (clear crystal, orange glitter, black base, and red/gold text) conveys prestige and celebration.

## Top Section (Crystal Gem):

- The top of the trophy features a large, faceted diamond crystal.
- This gem is transparent and multi-faceted, giving it a sparkling, prestigious appearance.

## Main Body (Trophy Column):

- The main body is a tall, black, rectangular prism, giving it a clean and formal look.
- It has a glossy finish, reflecting light and enhancing its premium appearance.

## Overall Design:

- The trophy combines a minimalist, modern shape with a touch of glamor through the crystal gem.
- The color contrast (black body, red text, and clear gem) reinforces a sense of importance and recognition.
- It is intended for a high honor award, recognizing substantial contribution and impact within a company.
